

THE DIVERTOR™

The Divertor™ is a highly visible 42" slimline channelizer designed for service in a wide variety of applications. The Divertor™ is ideal for controlling traffic in areas of limited space and can be fitted with a barricade light for maximum visibility.

Divertor™ features an easy-grip handle, allowing for easy carrying and quick positioning. The Divertor™ unique design allows convenient stacking with or without the base. The Divertor™ is made of quality low-density polyethylene and can be ordered with reflective tapes and a variety of base weights.

See reverse side for specifications.
