

Diamond Panel

Lakeside Plastics Diamond Panel is a highly visible vertical traffic channelizer designed for service in a wide variety of vehicle and pedestrian applications.

The Diamond Panel features an easy-grip handle, allowing for easy carrying and quick positioning. The unique design and shape of the Diamond Panel allows convenient stacking/transport with or without the base. The Diamond Panel can be fitted with a barricade light or signage.

The Diamond Panel is made of high quality impact resistant polyethylene and can be ordered with reflective tapes and a variety of base weights (20#, 30#, 42#). Available in safety orange, lime green and white.
